Holiday Inn
200 S. Pattee Street, #200
(406) 721-8550

On September 4th, 2008, the City of Missoula and NALGEP will host the first Montana Brownfields Redevelopment Workshop in association with NALGEP (the National Association of Local Government Environmental Professionals).

This one day event will bring together experts, practitioners, local governments, NGOs, and others from around Montana and the United States to discuss their solutions for the cleanup and redevelopment of Brownfields. The day will begin with a general information session, followed by more specific breakout sessions that address issues such as managing liability and working effectively with government and agency partners.

This workshop will provide useful information to those who are interested in learning about Brownfields as well as those who are experts in the field. It will also be a rare opportunity for Montana's Brownfield community to come together, share ideas and challenges, and learn from practitioners.
